

What it's all about

Career Partnerships, a project organized by the Greater Meredith Program, is a collaborative effort among our business community, and the municipality to prepare our children to thrive in an ever-changing economy. By providing a variety of educational and experiential learning opportunities, our business and community leaders offer students the chance to gain real-world skills and to benefit from their knowledge and experience.

Get Involved

Businesses

- Volunteer for the Speakers' Bureau
- Offer a job shadow opportunity for a student
- Offer an internship

Student/Parents

- Talk to Career Partnership Program Director in guidance

Educators

- Encourage your students to get involved in the Career Partnership Program

This program has tremendous potential. It is a mutually beneficial partnership that: enhances the school district's efforts to personalize student learning by opening doors to relevant, hands-on learning opportunities for students; places students in a position where they can offer quality community service; and provides a link between the schools and area businesses.

Dr. Phillip McCormack
Superintendent of Schools, SAU #2

Leete Woodworking;

Our community is rich with talent and experience. When the business world shares its knowledge and opportunities with high school students, the students benefit tremendously by understanding the responsibilities and practices of commerce and the work place. The insights gained will serve them well as they move beyond high school and begin college or careers.

Jacky Carty
School Board representative
